PRESIDENT'S MESSAGE

Greetings Members!

This has been a super hot year! Hope you are all able to do some exploration and work on your stones. The Idaho Gem Club lapidary workshop has been hopping! R.O.L.E. students are happy with an additional night to perfect their cabochons for grading and, thanks to Jim Witt, they all received magnificent new slabs to advance to their next levels. Teresa Nebeker is another club Treasure (she is actually the Treasurer, but a treasure herself!) who slabs the coolest rocks and donates generously to various club causes, drawings and auctions. I gave Liz Warner some of Teresa's slabs to pass to R.O.L.E. students also as a reward, because it is such decadent material.

The appreciation our non-profit club has for donations of all kinds needs to be expressed bigger than ever before. We are receiving large estate donations from long-time members and words can't say how important this is to keep our programs going strong. We owe a big thanks to Karol Cawthon for her generous estate donation of petrified wood she and her late husband, George, collected over many years. Bill and Barbara Belknap have given the club a spectacular variety of rocks which we will sell at an upcoming club rock sale. Thank you to Robert Garner, Marge and Dan Conley, Dakota, Ryan, Cedar, Sandy, Shane and Angela Blodgett, Rick Corbett and Gary Moore for muscles and sweat loading up rocks during 100+ weather, using a lot of fuel, and especially for your enthusiasm for seeing new rocks. Robert helped me figure out logistics and round up help to accomplish this huge task. Thank you everyone! I will be asking for help washing these rocks, sorting and organizing a sale that benefits our gem club. At our last auction, Scott Schlagel arrived with a smile and a pickup load of super nice lapidary equipment, tumblers and tools which we will hold a special raffle for in November. Raffle Tickets will be sold for \$5.00 and you can deposit your ticket for a specific item. Your chances of winning depend on how many tickets you can purchase. Scott wanted to specifically put these items out for a beginner in lapidary to be able to buy. To avoid items going to the highest bidder, this raffle evens the playing field for a chance to take home a needed tool. A complete list and photos will be at our August 19 meeting, held at Kristen Armstrong Municipal Park, 500 Walnut St. The Potluck Picnic Dinner begins at 6:30, so arrive with your dish to share and your own table service anytime after 6:00. Thank you all for making home cooked food to share. We will have a special presentation from Guy DiTorrice, the Fossil Guy, and he will talk about sharing our hobby with others. We all need to reach out to our community more and introduce our club to schools, students of any grade (college especially), libraries, workplaces, senior centers, and friends. If you are an artist, step up! We need people of all talents to create great presentations!

The biggest reward I receive from volunteering to serve this club as an officer comes when a member tells me how much they appreciate learning new skills in lapidary, or thanking me for introducing them to a new hobby, meeting great people, and getting outdoors. Sharing our love of rocks and gems has helped many through cancer treatments, aided in recovery from addictions, reconnected family bonds on field trips, soothed loneliness through involvement, boosted self esteem, or helped a kid pass Science with high grades. From your mentors and instructors, you are welcome. Pass it on! Be an Ambassador for Idaho the Gem State through the greatest, oldest Idaho Gem Club.

Hope to see you for another fantastic picnic meeting and rock auction! Again, Thank You, Teresa and John Benedict for washing and sorting 30+ buckets of rocks to use for auctions! There is some way each of you can gain from being involved in our events. Share your skills with others! Join a field trip! Enjoy the workshop! Be proud to be a member of a terrific group of people! We have been waiting for you! Get excited about Earth Sciences! Stay hydrated everyone! Thank you for participating!

Respectfully Yours, Deana Ashton, President

The deadline for issues is the Friday after each Board Meeting for the current month's edition. To submit articles, please send them through email to Dana Robinson, Editor drobinso@boisestate.edu

Self Guided field trip.

AUGUST FIELD TRIP

The field trip for August will be a weekend trip to the Glass Buttes/Hampton Butte area with a stop at the Palisade Green Obsidian claim. This 3-day trip allows us to spend time in Burns at Jim Witt's Palisade Green Obsidian Claim, as well as time with Cheryl Link at Hampton Butte or at the Glass Buttes area for amazing obsidian. Emory Coons is available to lead us around Glass Buttes for a variety of obsidian colors. A world famous flint knapper, Emory will be your best contact on this trip. Spend some time learning all about magnetite and volcanic glass. Learn to knap arrowheads!

The green petrified wood seekers can visit Hampton Butte. Cheryl Link will be the leader there. Deana Ashton will be at Knap Inn campground inside Glass Buttes on the main road in. We will have maps for you to all locations.

We will meet in Burns on Friday, August 12th, at the McDonalds, 11:00 am Boise (Mtn) time, leaving at 11:30 am. The rest of the days we will decide where to collect for each day and where to meet. Burns is on Pacific Time, so they are an hour behind our local time. This is a 3.5 to 4 hour drive from Boise. This was a very interesting trip last year.

Tent and RV camping are available first come, first served at Knap Inn Campground. It is just off the main road into the Buttes. The Idaho Flintknappers may also join us. This might be a really exciting camp out! No tent? Come anyway! There will be one (huge) tent for you to bring a cot or sleeping bag and share space with the group. Contact numbers for this trip are:

Emory Coons (541) 589-2450

Cheryl Link (208) 859-5098 (or clink@micron.com)

Deana Ashton (208) 794-5628 (call or text)

Some folks are staying at the Rory and Ryan Hotel in Hines, OR. Their number is 1 (541) 573-3370.

HELP NEEDED

We are seeking a person to assist with our Juniors or Youth Program. If you are a parent or retired teacher and have fun and creative ideas to help get our monthly program in place, we need your help! Please reach out if you have an interest in helping our club youth learn and earn merit badges. The curriculum is all there, we just need help getting it all together and scheduling classes and outings. Even as a consultant or advisor, please contact Deana Ashton via text or phone, 208-794-5628.

R.O.L.E. PROGRAM

R.O.L.E. means Recognition of Lapidary Excellence. Idaho Gem Club members may join the ROLE Program to hone their skills in making perfect cabochons of different sizes, shapes and materials, which are then graded. Brent Stewart is Chairman and Lead Instructor, and Liz Warner is Brent's assistant. She is entering the final segment of her class levels.

Congratulations to:

Izzy and Cliff Green

John Akin

Brenda Boyle

MJ Oresik

Brenen Helgersen

Cedar Lewis

Kathl Whitacre

Jake Achivouser

They have all passed the Novice level.

Blaine Dahlstrom has passed the Apprentice level!

Way to go! You inspire others to try new skills and achieve personal goals. We are proud of you!

WORKSHOPS

See the calendar for upcoming workshop dates! Come cut your rocks and learn cabochon making! Brent Stewart, Rick Corbett, and Liz Warner keep the club lapidary workshop operating year round.

Third Thursday of each month from 6:00 pm-8:45 pm
Saturday the week after general meeting -- 10:00 am-2:00 pm

WORKSHOP LOCATION

2620 W. Idaho St., Boise, ID
Next door to Stewart's Gem Shop
\$5 Fee for each visit (kids free)

Terri, we took the raffle winners down the Payette today. A fun time was had by all.

KID'S WORKSHOP

The next Kids' Workshop will be on Saturday, August 22nd from 10 am-2 pm. There will be the usual activities, as well as a hot dog lunch. Please bring your own masks! Please sign up by calling Brent Stewart at 208-342-1151 (Stewart's Gem Shop).

WELCOME NEW MEMBERS

Brandon & Sharon Wilborn	Brad Schafer
Tim & Samee Grey	Mike & Adrienne Miller
Jonathan Diaz & Emilie Cole	
Kevin Spracklen & Amanda Young	

WELCOME NEW JUNIORS

Zoe Spracklen	Kenzie Snethen
Olivia Spracklen	Chelsea Snethen
Judith Spracklen	Josh Snethen
Jesse Spracklen	Eli Snethen
Quinn Grey	River Grey
Isaac Miller	Zane Miller
Dexter Miller	

New Members:

Our website at idahogemclub.com has all of the information regarding our club operations. We also have a facebook page for interacting and socializing. Please contact any Officer or Board Member with questions or suggestions! Welcome to your Gem Club!

SUNSHINE LADY REPORT

By Deana Ashton

IGC Sunshine Lady sends cheerful greetings to club members needing , get well wishes, sympathy and anniversary expressions. If you know someone in need of cheer or attention, Please text or call Deana at 208-794-5628.

PERIDOT

Meaning and History

Peridot is the yellowish green to greenish yellow gem variety of the mineral olivine. Throughout history, peridot has often been confused with other gems such as topaz and emerald. The Red Sea island of Topazios, a purported source of the name “topaz,” actually produced peridot. The Shrine of the Three Holy Kings in Germany’s Cologne Cathedral is decorated with 200 carats of gems that were believed to be emeralds but are, in fact, the August birthstone peridot. Some historians even speculate that Cleopatra’s famous emerald collection may have been comprised of peridot.

The word “peridot” comes from the Arabic *faridat*, meaning gem. This stone was valued in many ancient and medieval cultures. It appeared in priests’ jewelry as early as the second century and later in the chalices and churches of medieval Europe. The peridot has also been used for centuries as a protective talisman, shielding the owner from evil spirits and “terrors of the night.” Peridot is the gem given to celebrate a 16th wedding anniversary.

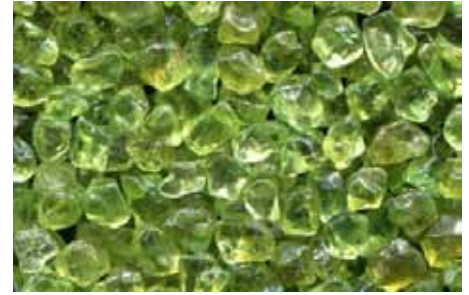

Where is Peridot Found?

Peridot has an amazing story. Although most of the peridot seen in jewelry today comes from sources such as China, Myanmar, Pakistan, Tanzania, Vietnam and the United States, some journeyed to Earth on meteorites while others are found in exotic locales like Peridot Beach, Hawaii, where the sands shimmer

a luminous green. The Egyptian island of Zabargad (the name now given to Topazios) is the oldest recorded source of this stone. Although the island produced beautiful peridot, its harsh conditions earned it ominous names like Island of Death and Ophiodes (“snake island”). Peridot from Zabargad has been prized for centuries and is still highly desirable. The finest specimens of this stone can be found in prestigious museums around the world. Myanmar (formerly Burma) is another important source of peridot. On the northern slope of Kyaukpon, a mountainous region near the gem city of Mogok, loose peridot crystals can sometimes be found in crevices. The finest-quality peridot from this locality has deep color and superb transparency.

Arizona is the main source in the United States. Massive volcanic eruptions many thousands of years ago sent rivers of lava spilling across the desert landscape of what is today the San Carlos Apache Indian Reservation, where some Apache families have worked the mines for decades.

This stone has also come to Earth via pallasite (made of nickel-iron and olivine) meteorites. Thousands of meteorites have hit the earth, many of them containing olivine, but only a few have had gem-quality peridot.

Peridot Care and Cleaning

With a hardness of 6.5 to 7 on the Mohs scale, peridot is softer than many gems and cannot take hard wear, so it is not recommended for daily use in a ring. It can also be damaged by some acids and even by long-term exposure to acidic perspiration. Cleaning peridot is a delicate process. Never use a steam or ultrasonic cleaner, as your peridot is vulnerable to thermal shock. It is safest to use a soft-bristle brush with a mild dish soap in warm water. Peridot should be stored with care to avoid scratching by gems with greater hardness.

Sardonyx: Ancient August Birthstone

The most ancient of the August birthstones, sardonyx is a combination of two types of chalcedony (cryptocrystalline quartz): sard and onyx. Bands of brownish red to brown to dark orange sard alternate with typically white or black layers of onyx. In ancient times, sardonyx was a popular stone for Roman seals and signet rings, as hot wax would not stick to it. For millennia, the bands of color in this stone have made it a popular carving material for cameos and intaglios.

Sardonyx has many sources. India is notable for producing sardonyx with good contrast between the different colored layers. It is also found in Brazil, Germany, Czechoslovakia, Madagascar, Uruguay and the United States, among other localities.

MINUTES OF THE IDAHO GEM CLUB GENERAL MEETING JULY 19, 2022

Meeting called to order at 6:30 by Deana Ashton. The Pledge of Allegiance was recited and Linda Barlow gave the blessing. Everyone lined up and enjoyed a good dinner.

The business meeting began at 7:10 pm. Rick drew winning tickets for door prizes for 5 juniors and 14 adults.

Program: The program for the evening was an interesting talk from Chris Lund, Geologist with the BLM. He works with groups on mining/collecting rules in Idaho and the west. His office is at 101 S. Bruneau Hwy., Marsing. He also passed out brochures covering mining claims topics. One general rule is if the object is older than 50 years, leave it in place. The same for any arrowheads found. Any specimen over 250 lbs. is considered a museum piece. You may need a permit to extract it if any equipment is needed. You may collect invertebrate fossils, but any non-invertebrates should be reported to Chris Lund. Contact Brian Adams if you see something illegal happening. The contact information for them is on the BLM website at www.blm.gov.

For mining claims the stakes should have claim information on them. Use the numerical sequence to look up the claim online. Derek Craft is the person to contact for vandalized claim markers. The office will help with using map software and also sells maps. As for camping on mining claims, you may stay 14 days every 30 days.

Large groups going on rockhounding trips is discouraged because of the impact on the roads and land. Contact the BLM for recurring events as a special recreation permit may be needed. Send in the list of field trips to the BLM to provide notification and follow the plan of operation.

Deana asked for any corrections to the minutes in the *Grindings* as printed. Patty made a motion to accept the minutes as printed, Dana seconded, the membership voted and the motion passed.

Secretary Report: No report.

Treasurer Report: The financial report is on the back table if anyone wants to look at it.

Workshop Report: Brent Stewart went over the workshop times and location. He also announced there will be an additional ROLE workshop day added on the third Monday each month.

Field Trip Report: The July field trip will be Thunderegg Days in Nyssa on July 7-9. Deana talked about the genies for demos and Phil's Gem Dig. There will also be geode cracking. Teresa and John will help get things over to Nyssa. Brenden will pick up the Genies.

The August field trip will be to Glass Buttes, Hampton Butte and the Palisade Green obsidian area. There will also be a knap-in with Emery Coons.

Old Business: No old business.

New Business: We received a large donation of lapidary and rockhounding equipment from Scott Schlagel. Thanks so much! Rather than auctioning it tonight we will go through it for a later event.

Deana encouraged anyone with finished lapidary pieces to enter a piece in the Western Idaho Fair this year. The office is open from 10 am to 2 pm.

Meeting adjourned at 7:50 pm. for the Auction.

Respectfully submitted, Dana Robinson, Secretary

MINUTES OF THE IDAHO GEM CLUB BOARD MEETING AUGUST 2, 2022

Deana Ashton called the meeting to order at 7:06 pm.

Present: Deana Ashton, Ed Moser, Rick Corbett, Teresa Nebeker, Jason Smith, Willa Renken, Cheryl Link, Terri Frostrom, Brent Stewart, and Dana Robinson

Guests: Sandy Blodgett and Debbie Mitchell

Deana asked for any corrections to the minutes as printed in the *Grindings*. Willa made a motion to accept the minutes, which was seconded by Jason. Board members voted, motion carried.

Secretary Report: Just junk mail this month.

Treasurer Report by Teresa Nebeker: Teresa went over the financial statements. She still needs to send a receipt to Karol Cawthon for donated material. Scott Schlagel also made an equipment donation at the picnic. Rock & Gem magazine has a lot of interesting junior articles and projects this month.

The Wells Fargo account keeps being flagged for inactivity every time a new person takes the position. Need to move it to DL Evans Bank instead.

Teresa had questions about setting up the IBond Treasury Market account. Set up the account and then Jason will manage it.

Federation Report: The NFMS Annual Meeting will be in Hillsboro, OR, on September 30, 2022. Dana made a motion to appoint Debbie Mitchell as our voting delegate for this meeting. Cheryl seconded, the board voted and the motion passed.

Field Trip Report: Cullen was very gracious to lead the field trip for Thunderegg Days on Saturday, July 9th. Everyone found good things to collect.

The August field trip to Glass Buttes area needs a chairperson/guide. Cheryl will take the group to Hampton Butte. Emory Coons can take people around the Glass Buttes section. Details are being worked out.

This year is the last chance for a field trip to McDermitt but we still need a leader.

Workshop Report: The August workshops are the 18th from 6-8:45 pm, and the 27th from 10 am-2 pm. The ROLE workshops will be August 1st from 6-8:45 pm and the 15th, same times. The next Kid's Day will be on the 20th from 10 am-2 pm.

Fuzzy is scheduling machine maintenance at the workshop for August 6th at 10 am. Willa and Cheryl have agreed to help out.

We have a bid for the electric and security lighting for the new saw room. Brent has some materials. The cost is \$1500, with the club contributing \$1000 and Brent contributing \$500 in trade value.

Willa made a motion that we accept the bid from Sparky to do the electric and security lighting in the new saw room. The club will contribute \$1000 and Brent will contribute materials and \$500 in trade value. Ed seconded, the board voted and the motion passed.

Robert Garner will put on the roof for the saw room. It was agreed that metal will be the best for longevity. We need to get a bid first. Fuzzy may be able to get a discount on materials.

Fuzzy also reported that most of the new wheels for the ROLE machines have now arrived. Just waiting on a couple.

Youth Group Report: Cheryl needs helpers for the group. Would like to do a birdhouse project on Kids' Day where juniors glue stones to the houses to decorate them.

Old Business: No old business.

New Business: Scott Schlagel donated equipment that he would like to get to new members that need it. There was much discussion on how to make it fair to those without the assets to acquire things elsewhere. After much discussion, it was decided that it would be best to do a Raffle similar to the show raffle setup with individual bags to drop tickets into. Rick made a motion to run the raffle through November and sell tickets for \$5 each or \$20 for 5 tickets. Ed seconded, the board voted and the motion carried.

There will be a Rock Sale at the Moores' house for the Bill Belknap donation. We also need a crew to sort and clean everything for the sale. It has been scheduled for September 17-18.

Deana scheduled a Show meeting for September 6 at 6 pm, just before the board meeting.

The picnic is set for August. Cheryl has given Willa the water and pop and Willa will also bring the ice cream. It is a potluck dinner and we need everyone to bring their own dinner service. Sandy will be our auctioneer again this month. Thank You!

Sandy would like to see us organize small group get-togethers to foster interest in making world-class items to auction to benefit the Scholarship Fund.

Six new member applications were reviewed. Dana made a motion to accept the new applications, Ed seconded, the board voted and the motion carried.

Meeting adjourned at 8:46 pm.

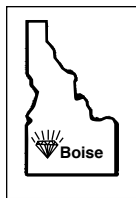

Respectfully submitted, Dana Robinson, Secretary
